ELC 2020 Update

The European Lacrosse Federation (ELF) and the European Lacrosse Championships Organising Committee announce today that the Men's European Lacrosse Championships (ELC20), originally scheduled for July 23-August 1, 2020 in Wroclaw, Poland, will not be held as planned in 2020.

Our first priority is to the safety of lacrosse participants. For this reason, the potential health risks and uncertainty posed by the global COVID-19 virus pandemic are simply too great to proceed with the event as originally planned.

ELF are initiating a consultation process with the 29 team managers and National Governing Bodies that had planned to participate in the event to assess possible options for the Championships. Following this consultation, ELF and the Organising Committee will announce future plans for ELC20.

For similar reasons, the ELF Annual General Meeting, originally scheduled for early August, will not be held in Wroclaw this year. The ELF is currently exploring alternatives for the AGM, but there will be an AGM in 2020.

We would like to thank our NGBs and the tournament organisers for their continued input and support, and the wider international lacrosse family for following the advice of public health authorities and doing our part, as a sport, to help combat the global pandemic.
